## **DETAILED ACTION**

### ***Information Disclosure Statement***

The IDS filed 8/16/04 has been considered and placed of record. An initialed copy is attached herewith.

### ***Specification***

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by one of Schenkel et al. (US 6,518,733) and Hall et al. (US 6,597,221).

Reference '733 discloses a capacitor charging circuit having adaptable ON-time and OFF-time wherein the timer is used to control the switch for the primary windings.

Reference '221 discloses a controller for controlling the switching time for the primary windings. The switch turns on and off to reduce power to the circuit.
